Tips to make flying comfortable for your pet

- ☐ Schedule a nonstop flight whenever possible
- ☐ Avoid busy holiday and weekend travel
- ☐ Fly major US airline, for most of them send their cargo handlers to animal care training
- ☐ Be careful with tranquilizers as they can lower the blood pressure, which could be lethal in combination with air pressure.
Contact your veterinarian first
- ☐ Whether you check your animal in as baggage or take him/her on the plane, make sure your name, address, telephone number the pets name and destination are on top of the kennel or container.
- ☐ Take a leash so you can walk your pet before and after the flight.
